

Realize the Value of Better Contract Lifecycle Management.

Centralize. Standardize. Optimize.

As the only patented healthcare-specific contract lifecycle management solution, TractManager's software-enabled services provide the tools, insights, and expertise to enable efficient contract lifecycle management. Our experts, capabilities, and analytics ensure that health systems are able to remain compliant with constantly changing federal and state requirements.

We do this by:

- Centralizing your contracts into a single source of truth and providing visibility into your entire ecosystem of agreements.
- Standardizing your enterprise's contract operations to streamline decision-making, improve productivity, ensure compliance, and eliminate process variability.
- Optimizing your downstream contract management activities by utilizing analytics, insights, and expert support to diagnose and resolve contract challenges.

Why We're #1 in Healthcare Contracting

<p>Greater Efficiency</p>	<p>A central contract repository and automated workflows to streamline contracting processes and facilitate accountable decision-making throughout the contract lifecycle.</p>
<p>Increased Compliance</p>	<p>Automated capabilities track, monitor, and report on compliance-related headaches associated with BAAs, conflicts of interest, and physician compensation.</p>
<p>Better Insights</p>	<p>Artificial Intelligence- and Machine Learning-enabled analytics help clients identify compliance risks and mitigate unnecessary and avoidable costs. Gain complete visibility into your organization's agreements, optimize downstream activities, and manage contracts or compliance issues by exception.</p>

Healthcare Contract Lifecycle Management – Fully Executed, Completely Compliant.

TractManager's Contract Lifecycle Management solution is a technology-enabled service that includes:

MediTract CLM

MediTract CLM is the only patented, healthcare-specific CLM solution designed to centralize, standardize, and optimize the contract lifecycle. Our solution increases transparency and collaboration throughout the contract lifecycle, resulting in improved productivity and accountability. Use it to securely manage all your contracts in a centralized database, create custom workflows by contract type, and remain compliant with changing healthcare regulations.

Compliance Suite

Compliance Suite mitigates risks associated with highly regulated contracts by automating data gathering, activity monitoring, and compliance reporting. Evaluate your vendors, track provider time reporting, avoid conflicts of interest, and record gifts and other non-monetary compensation that providers receive.

Contract Analytics

Powered by Artificial Intelligence (AI) and Machine Learning (ML) technologies, our Contract Analytics solution provides deep insights that healthcare executives need to avoid contract risks. Gain complete visibility into your organization's contracts, reduce liability, and reconcile issues before they become penalties.

Understand Your Contracts, Understand Your Business.

Our Experts Can Help.

TractManager's Contract Lifecycle Management solutions are designed, delivered, and supported by a team of healthcare experts who partner with you to drive increased productivity and improved compliance oversights.

Partner with TractManager's team of professionals to fully optimize your contract lifecycle.

Our professional services team offers:

- System administration services
- Customized implementation and training
- Ongoing process improvement support
- Database cleanup

96%

More Savings & Better Compliance in Less Time.

MediTract CLM lets you manage enterprise-wide contracts while reducing your administrative burden. We decreased the time from contract creation to contract execution for Business Associate Agreements (BAAs) by 96% for a large health system.

TractManager

Smarter Decisions. Smarter Healthcare.

TractManager empowers the unsung heroes who make healthcare organizations run, with insights and technology that lead to smarter decisions. From improved sourcing decisions, to compliant contract lifecycle management, to credentialing and provider management, we help people run their healthcare systems at peak efficiency, with minimal risk. And when that happens, something pretty wonderful happens — patients receive better care.
