

Capital Inventory Services

Grow the Value of Your Capital Inventory.

TractManager helps you buy and sell pre-owned medical equipment so you spend less time (and money) on capital equipment planning and inventory management projects, and more time achieving the best outcomes for your patients. Powered by our patented software and proprietary benchmark database, our Capital Inventory Services relieve some of the burden on your purchasing teams, ensuring you always receive fair market value for existing medical technology inventory.

Every dollar saved counts

We use best-in-class data and software to assess your inventory and manage your assets. Our team of experts helps you identify duplicate technologies, finding equipment you can trade in or sell, helping you avoid paying service contracts for obsolete or unnecessary equipment.

Capital Inventory Assessment	We assess your inventory and streamline your data and tracking, providing complete visibility into your capital assets.
Asset Valuation	We use secondary market pricing, utilization data, information on market trends, plus expert analysis to help you understand your equipment's fair market value.
Asset Disposition	Whether you're trading in, selling, donating, or relocating used medical equipment, our experts can manage the entire process according to your schedule.
Equipment Auctions	We manage the sale of your medical equipment via our live marketplace, or host custom auctions on your behalf.
Capital Planning	Our financial, clinical, and compliance analysts help you identify strategic sourcing, spend, and facilities planning goals, then partner with you to make them a reality.
