

Provider Evidence

Integrating Evidence, Technology, People, and Processes.

You don't always have enough time or resources to research clinical evidence for the latest medical technology, or adequately compare competing devices. TractManager's provider evidence solution and services provide high-quality clinical, operational, and financial data to help you choose the most effective products.

Make decisions, quicker.

By asking the right questions and gathering the appropriate evidence, our clinical team gets you started in the right direction, so your search can get to the right answers, fast. Our Clinical Advisors are veteran RNs with decades of hands-on experience. They work collaboratively with your team to assess the impact a technology or product may have on outcomes, clinician satisfaction, insurance reimbursement, and your strategic imperatives.

<p>Save Time and Reduce Backlogs</p>	<p>After using our solution, TractManager clients typically spend 45% less time evaluating a new product or product refresh than before.</p>
<p>Prioritize Requests</p>	<p>Our structured decision-support framework helps you triage requests and prioritize products that will have the most strategic impact.</p>
<p>Standardize Utilization and Acquisition</p>	<p>Identify and eliminate waste (e.g., ineffective products), and standardize clinical practices, vendors, and products.</p>
<p>Integrate Evidence Into Value Analysis</p>	<p>Improve evidence quality, and accelerate the time to reach a decision.</p>

\$6.3M
 Memorial Hermann saved \$6.3M annually by discontinuing the use of bone marrow aspirates and amniotic tissue products for which there was insufficient evidence to support their effectiveness.

\$600K-\$900K
 Centura Health saved \$600k-\$900k annually by standardizing the use of bone cement based on unbiased clinical evidence assessments.

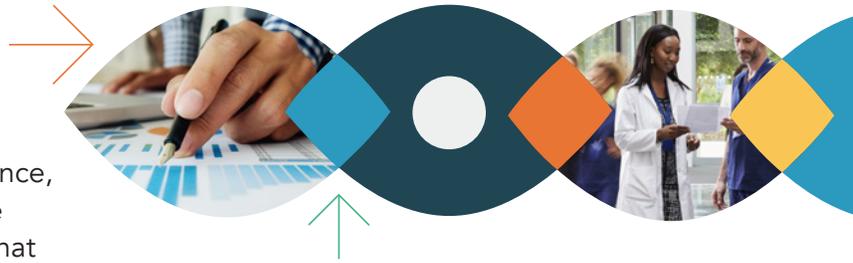

How Can We Help You?

Unbiased Evidence That Never Gets Lost in Translation.

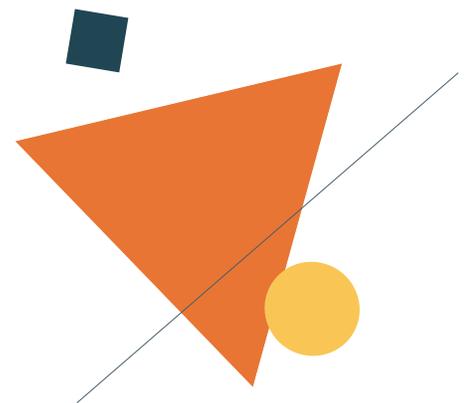

By providing the relevant clinical and financial evidence, TractManager helps your purchasing team save time evaluating requests for products and technologies that don't improve patient care.

Decision To Buy	Our experts combine and translate real-world clinical and financial evidence to recommend technologies and products.
Provider Evidence	We assess the clinical, operational, and financial impact of each technology you're considering.
Basic Initiative Analysis	Our Clinical Advisors help you understand your utilization and standardize your practices, products, and processes.
Value Analysis Assistance	Our Clinical Advisors search the literature and translate the evidence, helping clinical and financial decision-makers reach consensus.

Learn More About Value Management.

TractManager's Provider Evidence services are an essential component of our Value Management solution, a technology-enabled framework for the structured distribution and evaluation of decision-support data. Together, they aggregate the evidence, safety, regulatory, recall, spend, price benchmarking, and contract data necessary to evaluate capital equipment, med-surg supplies, and outsourced services.

Complimentary Summary Report

For a complimentary assessment of your current value analysis efforts, contact us today. We'll analyze the effectiveness of your organizational decision-making processes and technology, and help you chart a course toward improvement.
