

Think of Us as the Health System for Your Health System

Healthcare leaders nationwide rely on TractManager's strategic sourcing, contract lifecycle management, and provider management solutions to make smarter decisions.

Not All Healthcare Heroes Wear Scrubs.

Every organ transplant, every heart surgery, every knee replacement is made possible by a vital but often unseen infrastructure. And while the people running these day-to-day operations might not appear in the headlines, or receive acknowledgment from your patients, they are the foundation on which your health system's future success is built.

Contract Lifecycle Management

We centralize, standardize, and optimize contract management data and processes to improve productivity, and provide advanced contract analytics to ensure compliance and continued growth.

Strategic Sourcing

We combine clinical evidence and price benchmarking data with spend analytics to meet all your healthcare sourcing needs, from spend management, to value analysis, to capital planning.

Provider Management

Our technology-enabled services automate and accelerate your contracting, credentialing, privileging, and enrollment, while utilizing AI-powered analytics to avoid compliance violations.

\$25.4B+

Supply chains across the country have a total **annual savings opportunity** of **\$25.4 Billion+**...

...translating into **\$11M in savings opportunity per facility**.¹

85%

85% of legal professionals said time spent on **administrative tasks** is their biggest **pain point**.²

12%–15% of contracts are lost.³

+50%

From 2010 to 2017, **denied medical claims** at U.S. health systems **increased by 50%**.⁴

Denials and provider credentialing issues can jeopardize upwards of 5% of net patient revenue.⁵

How Can We Help You?
